- (1)40. _____ , we have to try our level best.
 (1)Be it work or play (2)Being work or play (3)To work or play (4)When work or play

三、閱讀測驗【請依照段落上下文意，選出最適當的答案】

Swine Influenza (swine flu) is a respiratory disease of pigs caused by type A influenza virus that regularly causes outbreaks of influenza in pigs. Swine flu viruses do not usually infect humans, but rare human infections have occurred. They can cause high levels of illness in pig herds, but cause few deaths in pigs. These viruses can circulate among swine throughout the year, but most outbreaks occur during the late fall and winter months, similar to outbreaks in humans.

Like influenza viruses in humans and other animals, swine flu viruses change constantly. Pigs can be infected by avian influenza and human influenza viruses as well as swine influenza viruses. When influenza viruses from different species infect pigs, they can re-assort (i.e. swap genes) and new viruses that are a mix of swine, human and/or avian influenza viruses can emerge. Over the years, different variations of swine flu viruses have emerged. At this time, there are three main influenza A virus subtypes that have been isolated in pigs in the United States: H1N1, H1N2, and H3N2.

Signs of swine flu in pigs can include fever, depression, coughing (barking), discharge from the nose or eyes, sneezing, breathing difficulties, eye redness or inflammation, and going off feed. Some pigs infected with influenza, however, may show no signs of illness at all. Thankfully, just as there are influenza vaccines for people, there are specific swine influenza vaccines available for pigs.

- (4)41. What might be the author's primary purpose of writing this passage?
 (1)To guarantee that swine flu viruses do not infect humans.
 (2)To testify that swine flu is the main cause of pigs' death in the United States.
 (3)To show the urgent need of inventing specific vaccines to save pigs from being infected.
 (4)To introduce some basic information about swine flu viruses and how the flu can be prevented.
- (3)42. When do most outbreaks of swine flu happen?
 (1)They tend to happen on warm days.
 (2)They solely happen in late winter.
 (3)They mainly happen in the late fall and winter.
 (4)It depends on when the outbreaks will affect humans.
- (3)43. Why do swine flu viruses change constantly?
 (1)The weather in the United States is changeable.
 (2)The symptoms of swine flu change in different seasons.
 (3)Influenza viruses from different species exchange their genes.
 (4)The main virus subtypes change their genetic structures automatically.
- (1)44. Which of the following symptoms is probably **NOT** a sign of swine flu in pigs?

(1)Feeling itchy.

(2)Having red eyes.

(3)Having high temperature.

(4)Sending out liquids from eyes.

(2)45. According to the passage, what is the most possible way to prevent pigs from being infected by particular swine flu?

(1)Keep pigs outside in winter days.

(2)Inject specific vaccines into pigs.

(3)Feed pigs on soft drink and bread.

(4)Invite vets to examine pigs every fall.

四、克漏字測驗【請依照段落上下文意，選出最適當的答案】

While Aunt June is driving, Lydia opens up her guidebook, “ The Travel Smart Guide to L.A ” . It is a big book, and Lydia opens it to the first Chapter, which is an introduction to the city.

The Travel Smart Guide to L.A.

Welcome to Los Angeles, the City of Angels! Many visitors who come here are 46 , and sometimes confused, by the large size of this city. It helps to bear in mind that what is normally covered by the blanket term “ L.A. ” is in fact a group of 88 47 cities!

Visitors most commonly spend time west of downtown L.A. This is the home of Hollywood, and a little further west , dozens of celebrities. In the neighborhoods of Beverly Hills, Bel Air, and Brentwood, 48 some of the country's richest and most famous people!

49 the northern border of L.A. county is the San Fernando Valley. 50 not particularly beautiful, the San Fernando Valley is of interest to many of L.A. visitors as this is the location of many major movie studios. On a trip to L.A. you may not actually see many angels, but we can almost guarantee you'll see a star or two.
