- (1)when                      (2)that                      (3)which                      (4)what

### 三、克漏字測驗【請依照段落上下文意，選出最適當的答案】

People are turned off by those who are desperate for attention. Confident people know that 41 yourself is much more effective than trying to prove that you're important. People catch on to your attitude quickly and are more attracted to the right attitude 42 what, or how many, people you know. Confident people always seem to bring the right attitude.

Confident people are masters of attention diffusion. When they're receiving attention for an 43, they quickly shift the focus to all the people who worked hard to help get them there. They don't 44 approval or praise because they draw their self-worth from within.

In 45, confident people aren't afraid to be proven wrong. They like putting their opinions out there to see if they hold up because they learn a lot from the times they are wrong and other people learn from them when they're right. Self-assured people know what they are capable of and don't treat being wrong as a personal slight.

- (1)41.(1)being                      (2)as                      (3)be                      (4)having
- (3)42.(1)from                      (2)then                      (3)than                      (4)of
- (4)43.(1)imitation                      (2)obstacle                      (3)extension                      (4)accomplishment
- (1)44.(1)crave                      (2)determine                      (3)acquire                      (4)explore
- (2)45.(1)case                      (2)addition                      (3)When                      (4)relation.sum

### 四、閱讀測驗【請依照段落上下文意，選出最適當的答案】

Alcoholism is a disease that requires medical treatment, and it is increasingly common. It cuts across all age, class, and social strata. Contrary to stereotype, few alcoholics are skid row bums. Most are employed, married, respectable people; women are as vulnerable as men. Approximately seven percent of the population, or ten percent of all drinkers, are alcoholics.

Dr. E. M. Jellinek, a leading researcher into alcoholism, divides the development of alcoholism into four stages: (1) the pre-alcoholic phase, (2) the prodromal phase, (3) the crucial phase, and (4) the chronic phase. Perhaps most important for our purposes here is the pre-alcoholic phase, for it is hoped that some potential alcoholics, recognizing the early warning signals of alcoholism, will seek counseling or other help in time to prevent serious onset of the illness.

Some symptoms of the pre-alcoholic phase are (a) drinking used as a mechanism to escape from problems; (b) drinking used to **bolster** courage, as before a test or job interview; (c) development of an increased tolerance for alcohol. There may also be (d) feelings of guilt associated with drinking or feelings of urgency connected with downing the

first few drinks. These last two symptoms, however, may not appear until the prodromal phase.

(4)46. According to the article, which of the following is true?

- (1) Alcoholism can be found only in poor people
- (2) Alcoholics are usually unemployed
- (3) Women are usually free from alcoholism
- (4) Alcoholism is found almost in all social levels.

(3)47. What is the main purpose of this article?

- (1) To encourage alcoholics to quit immediately.
- (2) To offer some advice to the alcoholics to be respectable people.
- (3) To remind some potential alcoholics to seek help to avoid possible severe disease
- (4) To point out the stages of the development of alcoholism.

(2)48. The word “ **bolster** ” in the third paragraph means most nearly the same as which of the following?

- (1) weaken
- (2) **strengthen**
- (3) betray
- (4) strike

(3)49. Which of the following is NOT mentioned in the symptoms of the pre-alcoholic phase?

- (1) drinking to escape from problems
- (2) drinking to be brave
- (3) feeling satisfied after drinking
- (4) developing an increased tolerance for alcohol

(1)50. Which of the following may probably appear until the prodromal phase?

- (1) feeling guilty associated with drinking
- (2) drinking to escape from problems
- (3) drinking when facing an interview
- (4) seeking counseling for quitting drinking
